The Board of Peace and the mediating countries of Egypt, Qatar, Türkiye, and the United States today are pleased to announce that Hamas has agreed to a detailed Roadmap for implementing the next phases of the Gaza ceasefire.

The agreement concludes months of intensive, good faith negotiations to advance President Donald J. Trump's vision for establishing new governance, security, humanitarian relief, reconstruction, and economic recovery in Gaza as set out in the Comprehensive Peace Plan and U.N. Security Council Resolution 2803.

The Roadmap represents a historic breakthrough. For the first time, Hamas officially has committed to an actionable plan for relinquishing all its weapons, which will be followed by Israeli withdrawal from Gaza. It holds the promise of delivering significant benefits to the people of Gaza, who have waited for too long for a better future, and security to the people of Israel.

Our focus now turns to implementation. The Board of Peace has worked closely with the National Committee for the Administration of Gaza (NCAG). It will soon begin a phased transition toward full authority, backed by the International Stabilization Force (ISF), and will accelerate implementation of the rule of law, security, and humanitarian improvement in Gaza.
