unicef.org/press-releases...

The latest [@unicef](#) report on Gaza provides undeniable evidence: food supplies have dramatically increased, nutrition has dramatically improved, health continues to see critical advances. These indicators demonstrate the humanitarian progress of the last year, even as much work remains to make Gaza an environment of peace, prosperity, and opportunity for its people, and security for the people of Israel. To make this happen, we need all sides to meet their commitments and fully implement President Trump's Comprehensive Peace Plan.

New SMART survey provides updated assessment of child and maternal nutrition in ac...
